INFTEC 2024

International Congress on Information Technologies in Medicine, Pharmacy, Agriculture, Food, Forestry, Environment, and Engineering

Hybrid
Congre

Dear Scientists,

The International Congress on Information Technologies in Medicine, Pharmacy, Agriculture, Food, Forestry, Environment, and Engineering ([INFTEC 2024](#)) will be held in Tokat/Turkiye from **May 8-10, 2024**. This congress provides an opportunity to explore the latest research, new

technologies, trending methods, and practical solutions related to agriculture, food, environment, and other disciplines of engineering.

We invite you to participate in [INFTEC 2024](https://www.inftec.org) to connect with leading educators, researchers, policymakers, businessmen, and other stakeholders from around the world to enhance your knowledge and education.

Tokat, where [INFTEC 2024](https://www.inftec.org) will take place, is a city located in the Central Black Sea Region of Turkey along the Tokat River (known as Tokat Suyu in Turkish), a branch of the Yeşilirmak River. The city was established during the Hittite period and served as one of the many fortresses of Pontus King Mithradates VI during his reign.

We invite you to join our congress to explore the latest scientific and technological developments and to discover the historical and natural beauties of the charming city of Tokat and its surroundings. We look forward to welcoming you in Tokat in early May for our congress.
